Languages

English

I graduated with a degree in Computer Science, but right after, Found myself working in the hospitality industry as a bartender, a role that held for 7 years. Despite enjoying the social aspects of the job, always had a passion for technology and spent a lot of my free time on the computer. Eventually, decided to pursue something truly liked—development. Enrolled at SAE Institute Athens and completed my training as a Front-End Developer in 2023. Since then, took additional courses on Udemy to enhance my skills, learning Vue.js, Tailwind CSS, and focusing mainly on React.js. Programming has become a real passion for me, and excited to continue growing in this field.

GYM - GAMER - CODER

In my free time, I enjoy staying active by going to the gym regularly, which helps me stay focused and energized. I'm also a passionate gamer, always exploring new games and strategies. Additionally, I love coding as a creative outlet, constantly learning and working on personal projects to sharpen my skills.
